

HONEY BY NATURE

RETAIL PORTFOLIO

THE PUREST OF THE NATURE

HONEY BY NATURE

At Honey by Nature we simply love bringing the nature's best Mountain Honey from the most pristine Forest of Aravali - One of the oldest mountain ranges on the Earth. We go to great lengths to get this rare exotic Forest Honey which is made in the deep of the jungles from a wide variety of Nutritional Wild Flowers. The Passion for Bees, Exotic Honey and Exceptional Quality motivates our Company to bring to our consumers a Honey unlike any other. Our Organic Raw Honey is the emissary of various health benefits. It is nutritious and infuses its consumers with a plenty of essential health advantages. We are a GMP, HACCP & an ISO certified proud company. Our Honey is USDA Organic certified.

We follow a stringent quality policy that labels us among the best honey brands in the Asia. Our lab testing stage measures the nutritional value of the Honey and checks it's quality before sending it to the next stage of packing. At our bottling plant we follow GMP and HACCP laid out careful filling process to ensure the hard work of harvesting goes straight into the bottles. Further, our finest packaging, which includes packing the honey in glass jars, makes sure the Honey has the exquisite fruity taste, mesmerizing Forest Aroma intact and none of its nutritional value gets lost. We are already shipping our Honey to Europe, Middle east, USA and South East Asia. Further, We have one of the best logistics company to handle your valuable Honey in the most professional way.

SUPER SPECIALITY MOUNTAIN HONEY

(WILDFLOWER BLOSSOM HONEY)

What makes Honey by Nature so Super Special? Our Natural and Unprocessed Honey is free of any adulteration, residue, antibiotics and pollution. Honey by Nature is 100% pure Natural Forest Honey harvested from the deep dense jungles of the Aravali mountains in Rajasthan state of India. It is a limited quantity forest honey made from the blossom of nutritious Wild flowers which blossom from the month of Dec. to April. Not only our Honey is made from the nectar of these rich flowers but also from the honeydew secreted by plant sucking Aphids. This Honey is very rare to find and has higher enzymes and amino acids. These minerals have amazing health benefits and increases the immunity of the body.

Our Honey has a fresh natural flavor, delicious taste, mesmerizing aroma and health benefits. Just like our amazing Wild Bees which travel in the every nook and corner of the jungle to drink nectar of Healthy Wildflowers; our team of elite Honey Harvesters go to great risks to get this rarest of honey to your breakfast tables. They rock climb on steep rock features, crawl in the caves and climb tallest of the trees in the deep of these mountains to get your favorite honey to you. Honey by Nature is 100% Raw, Organic and Gluten Free.

THE **WILD-FLORA** OF HONEY BY NATURE

Its nectar is derived from rare wildflowers which blossom in these deciduous jungles from the month of December to April

Also, as it's a deciduous forest honey it is considered to be more nutritious than the other honey found in rain forest & evergreen forest as flowers in these mountains have to survive harsher conditions which make them very tough naturally and in turn makes the honey derived from there rich nectar a superfood. Here is the list of the flora of our Honey: -

- **Anwal**
- **Bauhinia Variegata or Purple Orchid**
- **Bauhinia Racemosa or Bidi Leaf Tree**
- **Butea Monosperma or Flame of the Forest**
- **Dyer Oleander Flower or Pala Indigo**
